Personal Statement / Objective

I am a solution-oriented multimedia design student specializing in UX and UI design. I am motivated in providing user-centered web design solutions.

I am seeking a UX/UI designer position in a dynamic and creative organization, where I can continually grow my knowledge and experience, and give value contribution to the success of the organization.

Personal Skills

Creative	Designed wireframes and prototypes of websites for different types of businesses.
Organized	Planned schedules and tasks to make sure that deadlines are met. Organized documents for quick retrieval.
Communicative	Replied and solved client enquiries. Presented monthly statistics to managers.
Independent and Reliable	Supported managers from different countries. Lead a team of developers. Created training materials for newly hired developers.
Problem-solver	Created web design solutions to solve a business problem.
Willingness to learn	Updated my programming and ux/ui design skills through online courses.

Technical Skills

Adobe XD	Wireframing and prototyping
VS Code	Front-end programming in HTML, CSS, SASS, Vue and Javascript
Github	Sharing code with teammates
Illustrator	Graphic designing
Photoshop	Photo manipulating
Premiere Pro	Video editing
Miro and Trello	Managing and planning projects, and coordinating with teammates
Microsoft Office	Working with documents and data
Indesign	Creating reports, flyers and business cards

Language Skills

English and Filipino	Speaking and writing in business level
Danish	Speaking and writing in elementary level
